

Big savings for Small Companies

MODULAR IMPROVEMENT PROGRAMME

By using simple best practice techniques even smaller companies can dramatically increase their operational effectiveness and make more profit.

Vision in Print engineers will work with you and your team to help realise greater efficiencies in processes, systems and practices that will have a lasting positive impact on the morale of your team and the success of your business.

Key benefits

- Real cost savings realised quickly
- Specifically designed for printers with less than 25 staff
- Initial diagnostic defines which topic areas to focus on
- Increased operational effectiveness in areas that matter to you
- Modular structure minimises impact on your cash flow and resources
- Employees learn problem solving techniques that increase their effectiveness
- Profits boosted

How does it work?

Working with employees from key areas of your business, ViP engineers will:

- Identify the biggest issues in cost, quality, delivery and flexibility
- Establish simple techniques to identify, define and solve problems and to track benefits
- Resolve current and future issues using effective tools, including team working
- Standardise processes to lock improvements in place
- Communicate the benefit of improvements on profitability and job security to everyone

Each five-day programme follows a one-day snapshot and is customised to meet your specific needs. The whole programme takes place over a three-month period and is modular to allow greater flexibility for smaller companies and will focus on critical areas for your business. Between each session, team members will implement actions to measure, trial and standardise solutions. Every session includes feedback to managers and rough-cut calculations of benefits.

Topics to Tackle

The topics covered are chosen to meet your particular issues, prioritizing where you can gain greatest impact and can include:

Materials waste reduction
Machine Efficiency

Production planning
Layout improvement

Quality
Key Performance Measures

Vision in Print has delivered over £5 million of identified savings for UK printers

Big Savings for Small Companies

About Vision in Print

Vision in Print, the Print Industry Forum, is a not for profit organisation with an independent board and the support of the DTI. Its role is to deliver improved productivity and competitiveness through two main activities: In-company process improvement programmes with Vision in Print engineers and 'Best Practice' studies to promote improved performance. Vision in Print partners with all the major print trade bodies (including BPIF, ProSkills Print and Amicus GPMS) to ensure maximum impact in raising the competitiveness of the whole UK Printing Industry.
